Black Kite is pleased to partner with industry ISACs to provide third-party risk intelligence to membership from a multi-dimensional view: Technical, financial and compliance

Black Kite’s ISAC Partner Program supports helping member organizations understand and respond to attack surface vulnerabilities throughout their complex supply chains. We are committed to improving information sharing across our most critical sectors, using standards-based risk analysis state and federal government agencies trust, with data from highly curated open-source intelligence.

Program Benefits:

- The world’s only Ransomware Susceptibility Index™ indicating vendor susceptibility to a ransomware attack
- Access to over 37 million entities in our data lake
- Standards-based Technical Cyber Ratings using MITRE frameworks
- Risk Quantification using Open FAIR™
- Automated compliance document parsing to 14 global frameworks, including NIST 800-53/171, CSF, and CMMC
- Comprehensive Strategy Report for vendor risk mitigation
- FocusTags™ to track high-profile global cyber events, within hours of attack, throughout your entire supply chain

Exclusively for IT-ISAC Members:

IT ISAC members are eligible to receive complimentary access to Black Kite’s third-party risk intelligence platform to **continuously monitor 5 of their vendors, partners or suppliers**. With this complimentary offer, members have FULL access to all features of the Black Kite platform:

- **Technical Cyber Rating**
  - Easy-to-understand letter grades with risk intelligence beyond a rating
  - Real-time continuous attack surface monitoring
  - Powerful performance behind 20 technical categories
  - Trusted, standards-based intelligence

- **Automated Risk Quantification**
  - Understand the potential financial impact (risk) to your organization in the case of a cyber breach
  - Cost-effectively achieve and maintain an acceptable level of loss exposure
  - Effectively communicate risks internally and to the board

- **Ransomware Susceptibility Index™**
  - Your Organization: 0.71
  - Your Industry Peers: 0.45

  Using data and machine learning, Black Kite’s RSI™ discovers the likelihood that an organization will experience a ransomware attack.

- **VendorMap™ (BETA)**
  - Automated 3rd, 4th to Nth party vendor detection - See your entire supply chain in seconds

- **FocusTags™**
  - Track high-profile cyber events with an automatic vendor tag to understand which of your vendors have been affected

- **Questionnaire & Compliance Correlation**
  - Automates consumption of a wide variety of questionnaires and internal policies
  - Map content to well-known standards and frameworks within minutes, including CMMC, NIST 800-171 and 800-53

**GET ACCESS TO THE PLATFORM**
